## ResourceRxs LLC to Perform Pre-Opening Documentation Review for Medical Cannabis Dispensary — *Ohio Valley Natural Relief*

(Akron, Ohio.) **ResourceRxs LLC**, an Ohio-based cannabis dispensary policy evaluation, compliance and accreditation company, announced today that it has been commissioned by **Ohio Valley Natural Relief (OVNR)**, to perform the ResourceRxs independent review of its dispensary's documented policies as OVNR prepares for a formal Ohio board of pharmacy dispensary inspection. Located in Wintersville, Ohio, OVNR is one of only 56 provisionally-licensed medical cannabis dispensaries in the state. ResourceRxs is the nation's first and only cannabis dispensary documentation auditing and accreditation company.

"We at ResourceRxs are honored to be working with Ohio Valley Natural Relief to perform an independent, pre-opening policy documentation review, and look forward to serving other Ohio dispensaries, as well. ResourceRxs compliance experts will compare the dispensary's written policy documents to Ohio's medical marijuana program documents requirements, identifying and working with the dispensary to correct any documentation deficiencies before OVNR's formal state inspection by the Ohio board of pharmacy," states ResourceRxs founder and healthcare administration expert Jean M Milford. "ResourceRxs' audited and accredited dispensaries think more deeply about the role they play in the delivery of medical cannabis therapy to their patients. Through our policy audits, dispensary national accreditation and other services, dispensaries' role moves from one of simply selling a cannabis product to one focused on the overall clinical health and outcomes of medical cannabis patients.

"OVNR recognizes the value of proactively ensuring it has all applicable Ohio medical marijuana program policy documents in place. We are delighted to work with Jean Milford and the ResourceRxs team as we take this positive and preemptive step to better ensure a smooth and on-time state inspection and dispensary opening," OVNR owner Michael Petrella explains. "Our future medical cannabis patients, their caregivers, and their recommending physicians can be assured that OVNR understands the importance of compliance with Ohio's medical marijuana program policy requirements, and the exceptional care we will provide."

### About ResourceRxs

ResourceRx, offers medical cannabis dispensaries an opportunity to gain compliance with their states' required written policies. In addition, its wholly-owned dispensary accreditation program at National Medical Marijuana Accreditation Organization (NMMAO), gives dispensaries the ability to achieve the nation's first and only cannabis dispensary accreditation. NMMAO-accredited dispensaries belong to the nation's premier Preferred Dispensary Organization (PDO) network, HealthyCann™. HealthyCan dispensaries make medical cannabis therapy more accessible and affordable to patients, caregivers and prescribing physicians through a variety of services including automated refill reminders, cannabis cash discount card, and a future patient assistance program (PAP), medical cannabis financing options, and third-party claims processing technology.

### About Ohio Valley Natural Relief

Ohio Valley Natural Relief (OVNR) is one of only 56 medical cannabis dispensaries awarded a provisional license from the Ohio board of pharmacy. OVNR is located in Wintersville Ohio and anticipates it will receive its Certificate of Operation and open in December 2018.
